

Exclusive offer to GLV members 50% discount on VC Connect for Volunteering

In 2015 we partnered with VC Connect to offer GLV members a discounted offer for their volunteer management platform. We're delighted to once again offer remaining GLV members the opportunity to access this innovative system with a special offer – please see details below.

Around 25% of Volunteer Centres in the country are currently using the system to promote and manage volunteering in their localities, including 17 Centres in London. With plans currently in progress for a London-wide VC Connect for Volunteering site, there's never been a more exciting time to use this service.

Volunteering & Social Prescribing

We know that for people, volunteering has more of a positive impact on their wellbeing than any other activity - this is well documented. Over the past couple of years we've been working with a number of health projects, NHS England and CCGs to explore successful social prescribing delivery models. We have extensive knowledge and expertise in this area, with a software solution (VC Connect for Wellbeing) to manage referrals, link with local volunteering, and track and record health and wellbeing outcomes for individuals.

VC Connect for Wellbeing is currently being used to help deliver social prescribing across Essex via <http://www.connectwellessex.org.uk> and across Kent too <http://www.connectwellkent.org.uk>, where it is being successfully used by medical receptionists, pharmacists, link workers and other health professionals to refer patients through to community based care and activities.

For more details, or to arrange a demonstration of VC Connect services, please contact Sirinda Bhandal – email s.bhandal@vas.org.uk or call 0114 253 6611.

Confirmation must be made by 5pm, Friday 14 July 2017 in order to take advantage of this offer.

The team will also be at the GLV network event on 12 July 2017 to show you the system over the lunch break if you would like to chat to them informally.
